Classification Results

COMP5422 Homework 1

31 Mar 2026

CHI, Ting Hsuan (20819744)

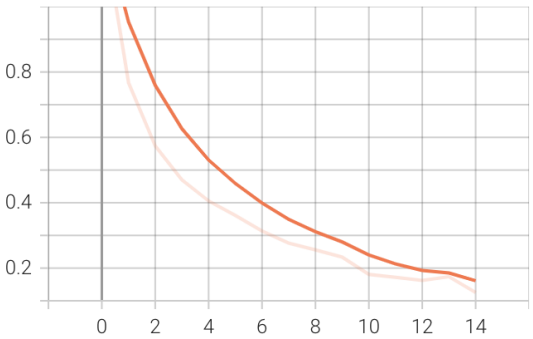
1 Quantitative Result

The following are the quantitative results of the CNN Vehicle Classification task:

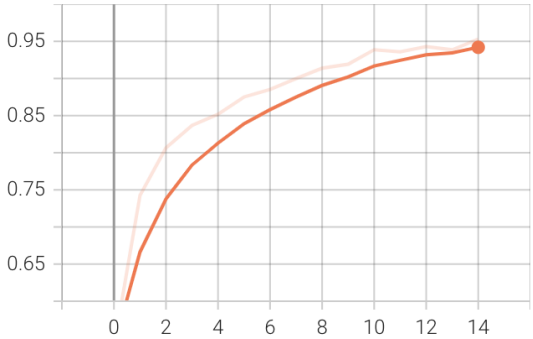
Single-Task	Vehicle Classification (Accuracy)
Train	0.95
Validation	0.839

2 Training Curve

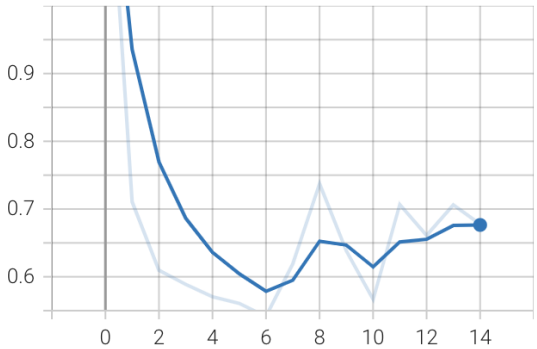
The following are the training curves of the CNN Vehicle Classification task:



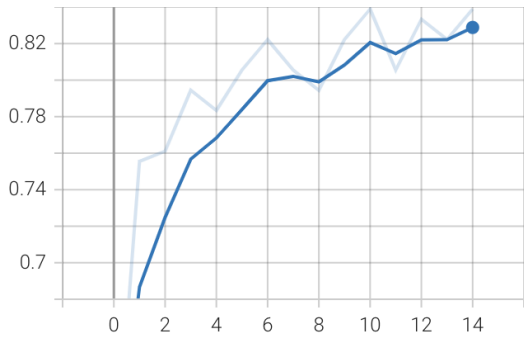
(a) Training loss



(b) Training Accuracy



(c) Validation loss



(d) Validation loss
